**Application No.:** 10/599,384  
**Examiner:** Bai. D. Vu  
**Art Unit:** 2165  
**Applicant:** Palacios, Angel

**Description of phone interview carried out on June 19, 2008**

A phone interview was requested by the Applicant and kindly accepted and conducted by the Examiners. The Applicant explained that the claims had been reworded in order to most clearly show the newness and nonobviousness of the invention.

It was agreed that the new claims overcame the previous objections regarding section 102(b) by Greef, and that a new search would be carried out with respect to them. The structure of some claims such as 1, 14 and 28 was also discussed, and the Examiners kindly explained the incorrect parts and how to correct them.

Signed by Angel Palacios

Madrid, July 31, 2008
